WORDS FROM THE LEPRECHAUN

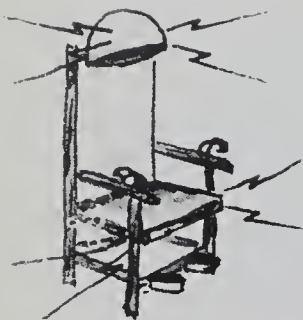

Our 22nd Annual Convention with its theme of "Amistad Con
exico A Trave's De Numismáticas" turned out to be one of the most
orful conventions yet and we should thank Ray Reinoehl for this.
everyone seemed to enjoy this glamorous affair and the way each one
rked whole-heartedly made it all possible. There was an increase in
number of dealers this year and all of them seemed to be pleased
h the convention. Bourse Chairman Jerry Yahalom, Exhibits Co-
airmen Albert and Virginia Hall, Auction Chairman Paul Koppen-
ver, Publicity Chairmen Nona Moore, Robret Thompson, and George
ce—all did fine jobs. All-in-all, **everyone** did their parts very well.

The big problem for me now is to find the way to adequately follow
Past Presidents and be the guide to lead us to another great conven-
n. Being an Irishman, I will roll up my sleeves and give my best.
th the help of all the officers and club representatives and committee
rkers we will make it a success. Our 23rd convention will be on the
h side (I wonder why?) which I am sure is not much of a surprise to
vone!

With these thoughts in mind—Love thy God, love our hobby, and
e all mankind—I am sure we'll succeed.

Love,

Myron McClafin
President

HELLO OUT THERE AGAIN!

It's hard to believe that YE Ed's name has already been on the NASC Quarterly's Contents Page for three years now. With the start of this fourth year something new has been added. At the Annual Business Meeting, held in conjunction with the 22nd Annual Convention just past, the assembled members honored your editor by naming him to the position of Vice President of the Association.

Having worked with "Mac" McClafin for three years now as Editor and Printer/Publisher, we now embark on a year of working together (in addition) as V.P. and President. If the rest of the Association can stand having two "Mac's" at the same time, it should be a fine year.

So, with Mac the Irishman as President and Mac the Scotsman as V.P. working together with President-Elect Dick Lebold (who assures us that he's a good German), here we are and here we go!

N.A.S.C. 22nd ANNUAL CONVENTION HIGHLIGHTS

by J. H. McInnis, Jr.

DAY—Wednesday

A new convention feature was inaugurated this year. The Professional Numismatists Guild held an assembly at the L.A. Hilton on Wednesday, February 23 (the day before the start of NASC's convention).

The PNG used many of the facilities that were to be used by NASC during the remainder of the week, but operated on a "by invitation" basis. A good deal of dealer-to-dealer trading took place, as well as that between the PNG dealers and their guests. The day was ended off with a banquet Wednesday evening.

Thursday

The convention officially opened to the public on Thursday. The Registration Desk was in full swing and the Exhibit and Bourse rooms were in operation as was the Franklin Mint Exhibit room.

Friday

At noon, the society of Paper Money Collectors held a luncheon featuring with Guest Speaker Marshall Lester of the Jeffries Banknote Company. Mr. Lester exposed the attendees to some of the latest in counterfeiting techniques and problems. The new Xerox color copier is a real boon when it comes to banknotes and securities—illegal usage, of course, but the profit margin for the successful crook is high.

The first session of Paramount International Coin Corporation's convention was held at 7 pm and at 8 pm Educational Forum Moderator Robert Kliman convened his meeting. Forum speakers this year were: Robert G. Wilde, Jr., ("So You Want To Run A Museum") who told the trials and tribulations of the museum curator; Cy Phillips, Jr., ("Coins Of This Wonderful Land, America") whose topic was directly numismatic and self-explanatory; and Bruce McNall ("The Current State Of The Coin Market") who brought us up to date in the world of coin collecting.

Saturday

Saturday, as usual, was the most event-filled day of the convention. Bright and early in the morning, the Club Representatives met with the NASC Officers for their traditional Breakfast meeting with the ever-popular Ralph "Curly" Mitchell as Master Of Ceremonies.

Following the breakfast came the Association's Annual Business Meeting, the chief function of which was the election of officers to serve for the coming year. Those elected were:

President Elect	Richard F. Lebold
Vice President	J. H. McInnis, Jr.
Recording Secretary	Alburtus Hoogeveen
Corresponding Secretary	Carol A. Linn
Treasurer	Walter T. Snyder
Historian	Leonora Donald
Board of Governors	G. A. Ayers, Paul Borack, Nathan Bromberg, Albert K. Hall Nona G. Moore, George Price

In addition, of course, Myron L. McClafflin (President Elect as of the 1976 convention) was automatically elevated to the Presidency and Raymond R. Reinoehl (outgoing President) was automatically assured of a place on the Board of Governors.

After lunch there were several Forums sponsored by NASC Member Clubs. The Azteca Numismatic Society heard Federico "Fred" Claveria speak on "Eight Reales And Pesos Of Mexico." The California Exonumist Society was host to J. H. McInnis, Jr., who provided a practical discussion of the process of creating your own medal design with "The Making Of A Medal." The California Wooden Money Association's own Earl O'Cathey spoke on "How Old Is Wooden Money?"—this was a tricky title, because Earl was thinking of the age of the wood, not the age of the money (would you believe petrified wood?—he showed samples). The Society For International Numismatics presented Leonard Sterling ("the man who invented silver") who gave a whirlwind overview of the references, accessories, tools, and appurtenances both necessary and merely vital to the numismatic collector.

Paramount presented the second half of its auction and the Los Angeles Dept. of Recreation and Parks presented a group of young but talented dancers who accented the convention's theme of "Friendship With Mexico Through Numismatics" with a dance program from Mexican Folklore.

Finally, the day was topped off with the Cocktail Party and Banquet. The Cocktail Party was enlivened by the arrival of President Reinoehl and President Elect McClafflin in their Mexican Finery (?) The Banquet featured an excellent prime rib dinner and the various awards, etc. Federico Claveria was to have been the MC, but a sudden illness brought the (literally) last minute substitution of Dan Brown, who did marvelously well on such short notice.

The Karl M. Brainard Literary Awards were won by James L. on (First Award for "A Bi-Centennial Coin Sails Through 200 rs of History"), Mel Wacks (Second Award for "The Day The Dealers Disappeared"), and Dr. Sol Taylor (Third Award for America's Tercentenary In Coinage—A Look Ahead").

The President's Trophy for the best Club Bulletin went to the Bernardino County Coin Club's publication "The Coin Press"—inia M. Hall, Editor.

The Maurice M. Gould Junior Achievement Award went to Oscar ez of the Boyle Heights Junior Coin And Stamp Club.

The Association's highest honor, the coveted Richard P. Goodson rd, was given to Past President George Bennet who, regrettably, not present to receive it due to illness in his family.

Exhibit Co-Chairmen Albert and Virginia Hall did a masterful of "moving right along" with the presentation of Exhibit Awards out slighting anyone. A list of the exhibit categories and the d winners will be found at the end of this "write-up".

Past President Ben Williams served as this year's Installing er and carried out his duties with distinction. The new officers isted above) were duly installed. Incoming President Myron L. laflin spoke briefly concerning his goals for the year ahead and oing President Raymond R. Reinoehl gave his thanks and fare-

Last (but not least) the Mexican Gold Coin door prizes were given Somehow no one ever got around to giving Ye Ed a list of the ers—but then, perhaps anonymity is best in a case of this sort.

Throughout the evening music of a most pleasant and most thor-ly Latin nature was supplied by a group of musicians whose talent es this writer's faith that there still exist performers who can a tune and don't feel that they have to deafen you to entertain

day

Sunday's activities consisted largely of taking aspirin for the ts of Saturday night and preparing to wrap things up for another The new officers, suddenly realizing that **they** were now responsible l this stuff—but which part is whose? Oh well, it will all get sorted before next year.

See you then!

**GORDON Z. GREENE
PAST PRESIDENT OF NASC
DIED AT 74**

Gordon Z. Greene, well known in numismatic circles throughout the United States and especially in the California area, died January 8, 1975, at the age of 74.

A spirited collector and exhibitor of paper money, ancient coinage, and tokens, Mr. Greene was a specialist in the field of Abraham Lincoln memorabilia, and his vast Lincoln display had been featured at coin shows from coast to coast.

His various other numismatic presentations had won him more than 30 first-place trophies, as well as six best of show recognitions, including three from the California State Numismatic Association.

An active member in many local, regional, and national numismatic groups including the American Numismatic Association, Greene served as president of the Numismatic Association of Southern California and the San Gabriel Valley Coin Club, director and exhibit chairman for both the Numismatic Association of Southern California and the Downey Numismatists, treasurer of the Monterey Park Coin Club, director of the California Exonumist Society, and award committee member of The Elongated Collectors.

Recently, he had been named Executive Director of the Numismatic Literary Guild, a group of which he had been a charter member. He was also on the NLG board, and had previously served as treasurer of the organization.

Mr. Greene's firm, Galaxie Designs, is noted as one of the leading manufacturers of numismatic awards in the U.S., and he was in charge of medals and ribbons for the ANA Convention in Los Angeles in 1975. He founded the company in 1966.

THE CHALLENGES OF JUNIOR COIN COLLECTING

By Robert N. Marshall

Coin collecting means different things to different people. To some, collecting coins means just that, to put away any and all coins that come through their hands regardless of condition, rarity, or artistic merit. This group is best described as hoarders. I know banks have other names for them but we won't go into that any further at this time. Outside of the fact that they like to be called coin collectors there is little similarity between hoarders and the true coin collector.

A coin collector sees beyond the mere metal. He or she can see the work and skill involved in creating art in the round. Collectors become aware of the relative rarity of certain pieces mainly because rarity affects price and, in turn, a collector's pocketbook. It is this attack on the pocketbook that prompted me to collect coins in a somewhat different way, a way that has been very rewarding to me and one that I want to share with you. I especially hope this adds to the incentive of the younger collector with limited funds as this is the group most negatively affected by today's high prices. I hope this article will help give new life to the junior movement in coin collecting.

I have always had the desire to collect only MS-65 or better coins. This desire coupled with a no more than average income made my coin purchasing budget relatively small. In fact in recent years with two children needing new clothes even before I have paid for the last clothes purchased it has become an ever more difficult task to put aside cash for adding to my coin collection. I have to make best use of my funds. I think the junior collectors would say, "I had to get my act together."

In the past a collector with limited finances could put together a good portion of his or her collection out of circulation and find enough duplicates to be able to trade for what was not available. This all ended for the most part with the withdrawal from circulation of the silver coins. I can't see how a youngster can get interested in coin collecting with things as they now are without a good plan of attack. I feel such a plan is incorporated within the next few pages and I would like to share it with you.

As with the collections of the richest collectors, the keynote to the collection must be quality instead of quantity. It is a beautiful feeling to have coins in your hands over one hundred years old that

like they have just come from the mint. There is satisfaction in getting at coin shows and club meetings and getting the best possible price. When you break up your collection no matter how small it is, it is easier to sell if the condition of the coins is high. You will receive more for your investment.

I started to look at the many aspects of collecting as they now are. I quickly gave up on complete sets (year and mint) as this was too expensive except for the most recent issues like Roosevelt Dimes, Jefferson Nickels and Lincoln Memorial Cents. These later sets did not hold the fascination for me that the older, more historic issues did.

I felt that assembling a gem Twentieth Century United States Type Set was the answer. I quickly gave up on this idea as the price of \$1500 to \$2000 was prohibitive to me even at one coin at a time. I had to look elsewhere. I came up with a good alternative I feel to the complete set idea. How about a set within a set? Take for example the wartime five-cent pieces. They are a complete issue within an issue. The entire set in Gem Brilliant Uncirculated only runs about \$2000 as of the start of 1977. Some of you are saying this is too expensive. Well, it is not when they are purchased one or two coins at a time. It's a super challenge to go out to coin shows and find full strike wartime five-cent pieces. No single coin costs more than \$4.00 from a dealer with the highest prices. The set only contains eleven coins but it will take longer to find true gem coins than it will to put the purchase money aside.

This is not the only short set that can be put together. Think of the 1943 steel cents. Most of them on the market have either been devalued or have rust spots starting. I feel this is a wonderful challenge and with a total outlay of around \$2.00.

Capitol Plastics helps this type of collecting with beautiful holders to hold and show off your collection. Try and put together a gem Twentieth Century Type Set of cents. They have a holder for them and the coins will run from \$30.00 to \$40.00 total price. Remember, you are buying the coins one at a time so the bite on your coin allowance won't be so great.

Another way to collect coins in top grades without having to get down on your skate board is to collect worldwide coins. Some coun-

tries minted coins for a very short time or a particular design was only used for from one to five or ten years. Though not always easy to locate in top grades these pieces normally don't sell for a budget-breaking price. Some examples are listed below.

Most Twentieth Century British coins were of short duration (under ten different dates) to enable most young collectors to do quite well with a minimum of investment.

BRITISH OCEANIA

Without getting into the early coppers and crowns of Australia most series are short lived, of varied and interesting designs and best of all are relatively inexpensive.

There are very few choices in the Canadian series that are still relatively inexpensive though one coin comes to mind, that being the Tombac five-cent pieces.

Let your imagination lead you to decide just what to collect. For example pick a year of importance to you and try to collect as many

coins in top grades for that year that you can. You can use your birth date, your parents' birth date, the birth year of some great person or even the year of some famous event in history. For example, use the year man landed on the moon or maybe the year Babe Ruth hit 60 home runs. I am sure your imagination is better than mine and you can come up with a super collection without going broke.

On a trip to a coin show you may see a coin from another country that is in exceptionally beautiful condition (it's toned evenly and of beautiful color) and it is not expensive. Look in your world coin reference book and see if it will be possible to put together a choice mint set for that year without having to rob a bank. This makes for real exciting trips to coin shows when you are looking for that particular date coin to add to that year's mint set. It's a real challenge. I know as I have been trying for three years to complete a choice brilliant uncirculated set of coins from England for the year 1842.

Maybe you already have a coin in your collection that you are exceptionally fond of because of its condition or of its history. You can go ahead and make up a one-coin display. I feel a display with only one coin, if done well, is far more interesting than say a five-case display with hundreds of coins. I feel a **single coin** display category should be set up. It would really put the imaginations to work.

Another interesting display I have seen in my travels is one where the exhibitor picked a size of coin (for example quarter size) and collected as many silver coins of that size in choice condition that he could afford and separated them by century (dates). Because the coins were so evenly matched and the size was constant it was beautiful to behold. Pick birds, fish, buildings, or modes of transportation, and assemble a series of world coins depicting these things. A wonderful display can be made of coins with examples of sailing ships.

Two coins that are not expensive come to mind as good starters.

1. The Canadian Dime
2. New Zealand 1967 50c

What about a collection showing different coats of arms on coins. What a beautiful History project this would be for school or maybe a "Best of Show" award at a coin show. Remember, using your imagination like this will keep the expense of coin collecting down while the satisfaction will remain high.

I remember as a kid I had a certain fascination with coins having holes in them (that is ones put there by the mint). With all the coin shows today a junior could put together a wonderful collection of Trolley Money in no time at all, at a very modest cost.

Let's try to keep our collecting within our budget. It will be more fascinating and challenging in the long run to use your imagination in putting your own personal touch on your collection as well as on your display.

If any of you would like to share your imagination and ideas feel free to write me. My address is: Robert N. Marshall 914 Rosewood Ct., Carpentersville, Ill. 60110.

Let's put fun back into junior collecting. Remember, if more people put an emphasis on quality, inexpensive coins, more dealers will cater to the collector, rather than to the investor's portfolio.

EST-OF-SHOW" AND

LEWIS M. REAGAN FOUNDATION

by Abe Kosoff

One of the most coveted awards of the annual NASC convention is the Best-Show exhibit award. It seems appropriate to give a little of the background history which makes this award so meaningful.

The sponsor of the award is the Lewis M. Reagan Memorial Foundation, Inc. Lew Reagan was General Secretary of the American Numismatic Association for 17 years during which it enjoyed a period of its greatest growth. When Lew and some of his friends, particularly Sol Kaplan, Tim Shroyer, Max M. Schwartz, Abe Kosoff, dreamed up the idea of a Memorial Foundation to perpetuate Lew's life. Collectors contributed close to \$25,000 to a fund which earns income annually. This income is spent on awards for exhibits, donations for educational purposes, etc., all desirable numismatic pursuits.

Sol Kaplan was the Managing Director of the Foundation until he passed away. During his tenure he encouraged collectors to prepare exhibits by making these awards available to many organizations. It was Sol who initiated the Steve Kosoff Award as a memorial to a young man who loved numismatics and the people in NASC. The 1977 award (won by Peter and Betty Brander) is a 15-1/2" by 19-1/2" plaque. The center piece is bronze with a heavily ornamented border, mounted on blue velvet and the whole enclosed within a mahogany frame. The inscription of the 1977 award reads: "THE/LEWIS M. REAGAN/MEMORIAL FOUNDATION, INC./presented to/PETER & BETTY BRANDER/For the/BEST OF SHOW"/at/THE NUMISMATIC ASSOCIATION OF/SOUTHERN CALIFORNIA/FEBRUARY 26, 1977".

Max M. Schwartz succeeded Sol Kaplan as Managing Director and Abe Kosoff succeeded as President of the Foundation. When Max found it necessary to retire, he was succeeded by Kenneth L. Hallenbeck, Jr., a Governor of the ANA, who remains as Managing Director today. On the Board of the Foundation are the following Directors: Amon C. Carter, Jr., Lee F. Hewitt, A. Kosoff, Chester L. Krause, J. Hewitt Judd, John H. Morris, Jr., Eric P. Newman, Mrs. R. Henry Norris, Mrs. Anna Merle Panosh, Mrs. June Pond, Edward C. Rochette, Mrs. Margaret (Margo) Russell, and Nate S. Shapero.

SM 177	M. Louis Teller
SM 178	Larry L. Schallock
SM 200	Albert A. Tom (By special request)

To all of our new members, we wish to extend a very sincere WELCOME! If we do not have the opportunity to meet each one of you throughout the coming year, then we hope to see you during our 23rd convention next February. We look forward to your continued membership and if there are any questions on your mind, please do not hesitate to write me.

Since many of you do not attend the Annual Election and Business Meeting held during our convention each year, or any of the board meetings throughout the year, you really do not have the chance to realize just what the N.A.S.C. Membership consists of. I would like to take the time to review this with you.

Presently our active membership is 807 (including those listed in this issue). This total is comprised of the following groups:

- 15 Life Members
- 177 Sustaining Members
- 76 Club Members
- 539 Regular Members

LIFE MEMBERS — This class is reserved for the NASC PAST PRESIDENTS. This distinguished group receives a permanent membership card engraved with their name and membership numbers. Held in high esteem for their many contributions to the association, these Life Members well deserve the permanent membership card they receive. (Listing of the Past Presidents is provided in each issue of the Quarterly).

SUSTAINING MEMBERS — This is a fairly new class of Life Membership initiated on July 1, 1975. This group receives a permanent membership card also engraved with their name and membership numbers. Since the program was initiated I have received many letters of comment on the attractiveness and excellent quality of these Sustaining cards. This is a program that is open to enrollment throughout the year. My annual report listed, by SM number and name, all those who are actively enrolled. If you wish a copy of this listing please write.

CLUB MEMBERS — This is a class for member clubs. They are listed in each issue of our Quarterly along with their respective meeting location, when they meet and mailing addresses for contacting the club. If you review the listing you will see our member clubs form quite a variety of collecting areas, which should interest any type of collector. They all offer excellent programs and would welcome you to attend

their meetings. It is from these member clubs that many of our memberships are obtained. I have always stated that our member clubs are the backbone of our association, for through these individuals, our convention committees are chosen, the convention activities planned and attendance obtained from the member club publicity.

REGULAR MEMBERS — This is the class of membership which reflects the largest volume. Membership cards are issued on a yearly basis after payment of the current year's dues is received. I have the pleasure of endorsing each card on the behalf of the N.A.S.C. assuring that the individual holder is a member in good standing. Each year this group continues to grow, reflecting greater interest in Numismatics. We regret losing regular members, however, each year we do. **WE DON'T WANT TO LOSE YOU!** Our regular members are indeed the largest percentage of the association. Without you we would not be the N.A.S.C.

The four classes I have just reviewed all include many of our **CHARTER MEMBERS**. In another issue I will write of these first 50 individuals who began the N.A.S.C.

Membership—we need your continued support. If you have a friend or relative who may be interested in receiving a copy of our publication, who would like to attend our annual convention, visit our **MONEY MUSEUM** or join the N.A.S.C., please drop me a line. Your request will be given immediate attention. We hope you all join in, to help the association continue to grow.

Sincerely yours,

Carol
